The latest Blue Book collection has landed at the Tiffany & Co. Vancouver flagship store at 723 Burrard St.

The arrival marks the first time the full release, which features approximately 200 one-of-a-kind fine jewelry creations crafted from diamonds and precious gemstones, has been on display in Vancouver before any other international city besides New York. And the first time a Blue Book release has been on display here in its entirety.

The multi-million dollar creations will be on display through April 26 before they return to New York.

But you don't have to be a big spender to enjoy the beauty of these creations. Take a look at the video above to see what we mean.
