## Nita Lake Lodge, Whistler, Canada

The only things you need to bring on this babymoon are seriously cozy, comfy loungewear and maybe a pair of snow pants. This is all about relaxing and taking in some of the great outdoors. Nita Lake Lodge is Whistler's only lakeside property and boasts fireplaces and deep soaking tubs in each of its 77 rooms. The spa and fitness center features yoga classes and prenatal massages. If you're feeling particularly outdoorsy, you can take a gondola ride up the mountain or hike the wooded trails that surround the hotel.
